

STEP-BY-STEP INSTALLATION GUIDE

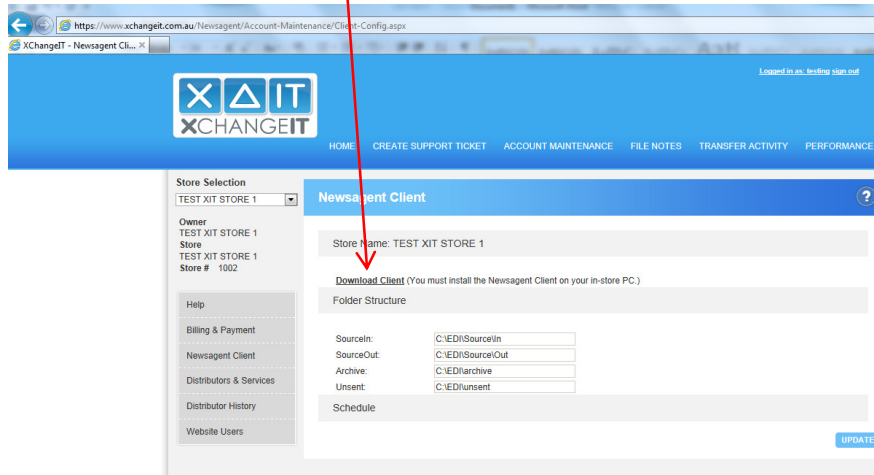

1. Goto <http://www.xchangeit.com.au>
2. Enter username and password

3. Select "Account Maintenance", and then select "Newsagent Client"

4. Click on "Download Client"

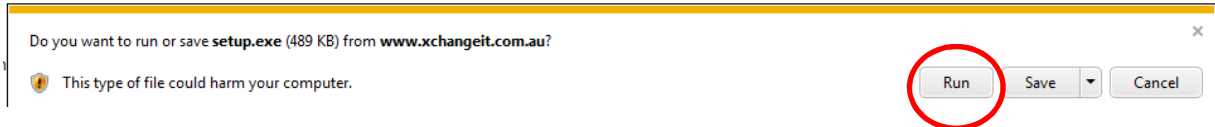

5. Click on "Install"

The screenshot shows the installation page for 'XchangeIT Newsagent Client'. The page has a blue header with the title 'XchangeIT Link - XchangeIT Newsagent Client'. Below the header, there are fields for 'Name: XchangeIT Newsagent Client', 'Version: 1.0.35.1', and 'Publisher: XchangeIT Link'. A section titled 'The following prerequisites are required:' lists '.NET Framework 2.0 (x86)' and 'Windows Installer 3.1'. Another section titled 'The following prerequisites are required but wont be installed automatically:' lists requirements for Windows 2000, XP, and Vista users. At the bottom, there are two buttons: 'BACK' and 'INSTALL'. The 'INSTALL' button is circled in red.

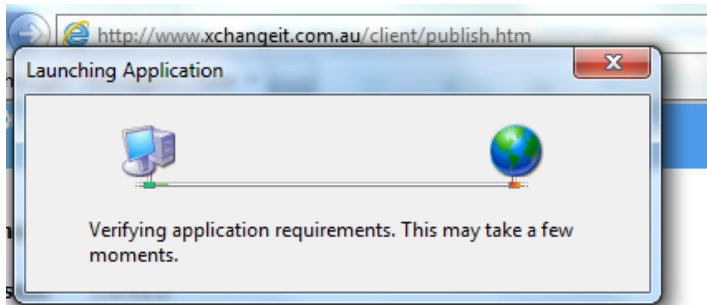

Please note:

1. XchangeIT no longer supports Windows 2000, XP & Vista
2. XchangeIT Link requires a minimum of Microsoft .NET Framework Ver. 3.5

6. Click "Run"

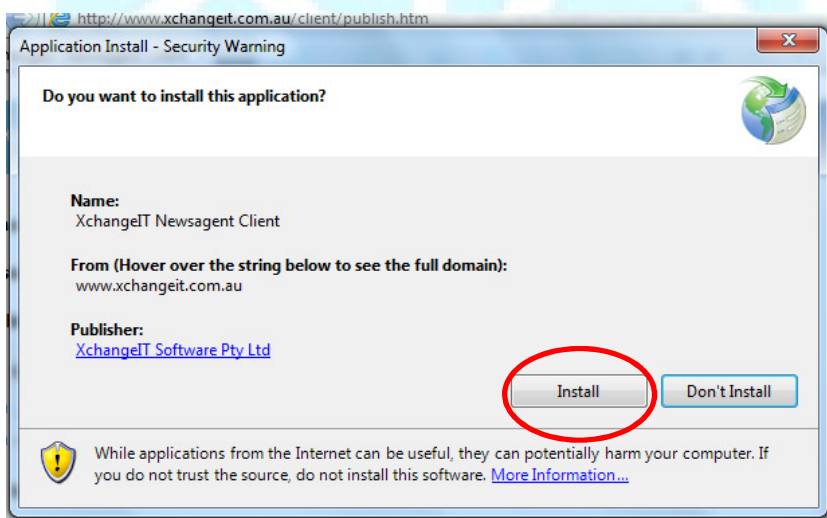

7. Installation of system begins

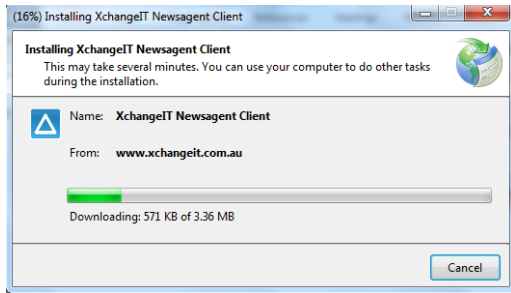

Publisher: XchangeIT Link

following prerequisites are required:

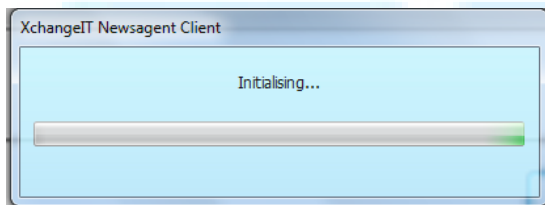

8. Click "Install"

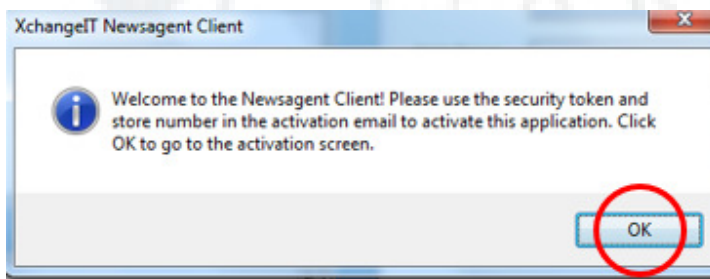

9. You will now see this screen.

10. You will then see this screen.

11. Click "OK"

12. Check your email for a Security Token.

Subject: XchangeIT: Reset Store security token

Dear Sir,

Your security token has been reset by the XchangeIT Helpdesk. Details are as follows:

- Store Name: TEST ABC NEWS
- Store Number: 1062
- Security Token: W7GU7RLA

You should use this to reset your XchangeIT Newsagent Client. To do this:

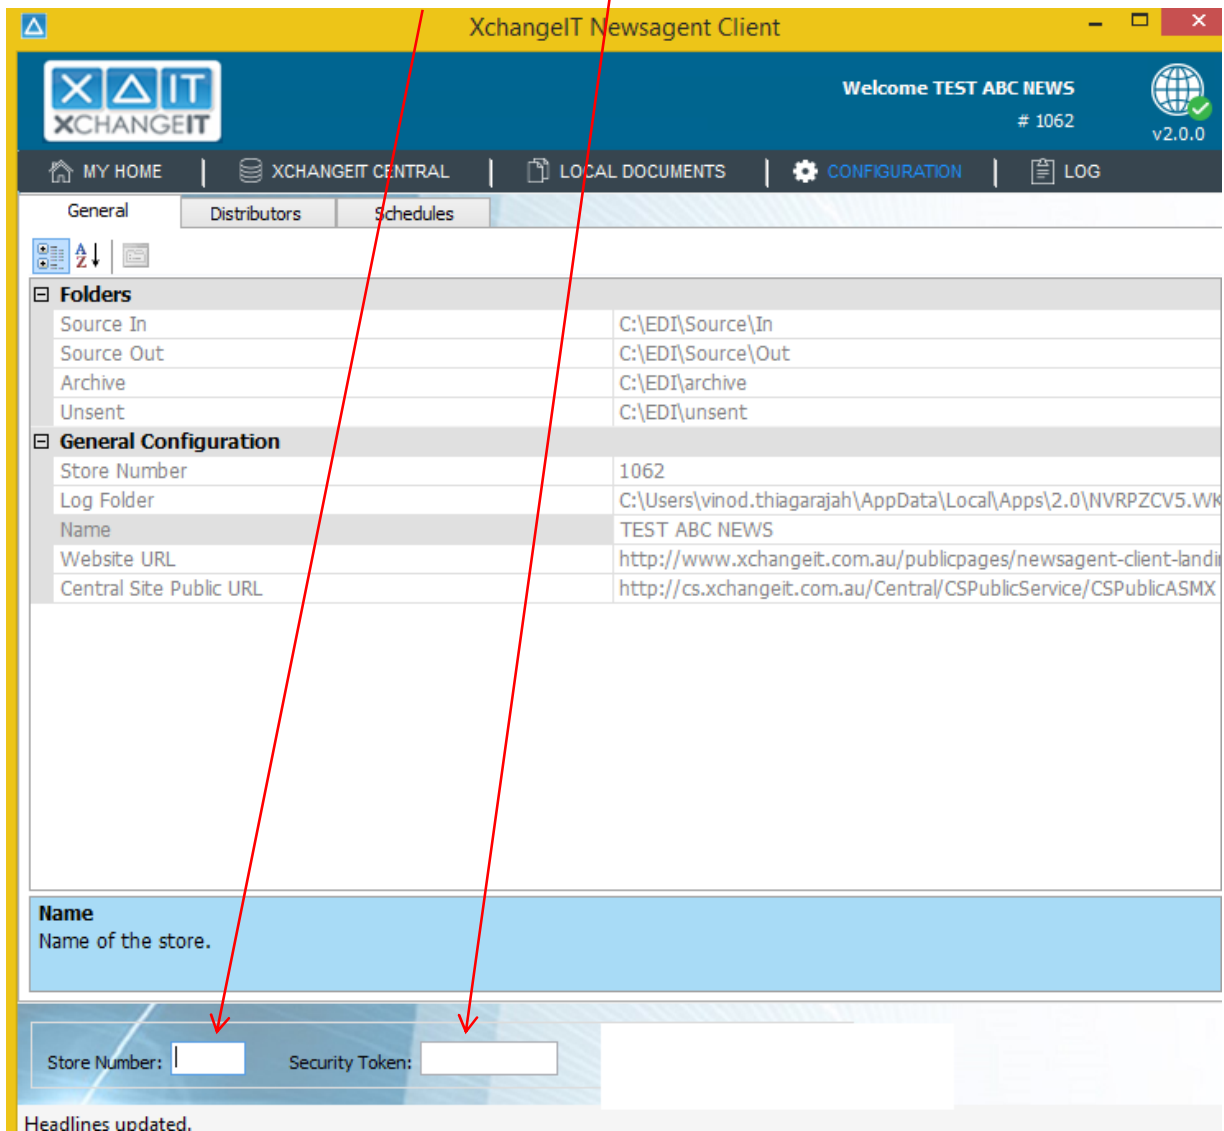

- Locate the PC where XchangeIT is installed
- Click the XchangeIT icon in the system tray (i.e. bottom right of the screen) so that the Newsagent Client is visible on screen
- Select the 'Configuration' tab
- Select the 'Reset' button (bottom right)
- Enter the Store Number and Security Token as shown above and press 'Activate'.

Regards,

XchangeIT Link
support@xchangeit.com.au
1300 551 212

13. Enter your XchangeIT Account number (Store number) and Security Token, and Click "Activate"

14. Click "OK" to start using XchangeIT Client

Congratulations, the installation is complete.
